

Dear Mayor Durham & Lewisville City Council Members,

Main & Mill Business Association would like to thank the City of Lewisville for everything they provided last year for our Shared Table event on October 15, 2017. We had over 100 people in attendance and it was a huge success! We are looking forward to this years Shared Table event, to be held on October 14, 2018, and are striving for 125 guests to be in attendance. The excitement and buzz it created for our business owners and downtown area was truly rewarding. Most importantly, the proceeds from last year are being used to create a mural that is in its final stages of completion in the alley between Main and Church. The Shared Table event would not have been possible without the generosity and collaboration between our association and the city; and for that we are extremely grateful.

As we embark on our 2nd Annual Shared Table event we are respectfully requesting that the fees associated with renting Wayne Ferguson Plaza, as well as MCL Grand if needed, be waved. Once again, we are asking that the city give back to its loyal and generous property/business owners for an event that will benefit the entire community. With this annual event our goal is to invest proceeds back into the old town district by funding public art projects, paying the electricity bill for the downtown lighting, and future projects that may arise. We appreciate the time and consideration for this request and look forward to your response.

Sincerely,

Main & Mill Business Association
