

## **MEMORANDUM**

**TO:** Planning & Zoning Commission

**FROM:** Lauren Cook, Planner I

**DATE:** April 15, 2025

**SUBJECT:** **Public Hearing: Consideration of a Zone Change From Light Industrial (LI) District to Single-Family Residential (7,500 Square-Foot Lot) (R7.5) District, on 0.21 Acres, Legally Described as a Portion of Lot 1D, Block 9, McKenzie-Hembry Addition; Located at 630 Willow Street; as Requested by the City of Lewisville. (25-02-4-Z)**

### **BACKGROUND:**

The City of Lewisville Planning department is initiating a rezoning request on behalf of the residents at 630 Willow Street to rezone the property from Light Industrial (LI) district to Single-Family Residential 7,500 Square-Foot Lot (R7.5) district. The owners first expressed their interest in rezoning at the community engagement meeting held at Macedonia Ministries on October 3<sup>rd</sup>, 2024. A one-on-one meeting was held on February 13, 2025, to discuss which specific zoning district the residents would prefer and to get their written consent for the rezoning process.

### **ANALYSIS:**

The McKenzie-Hembry neighborhood is a historically Black neighborhood in the city of Lewisville. In the 1970s, a series of rezonings took place around Lewisville to rezone single-family residential properties to Light Industrial district, including residential properties within this neighborhood (00225-12-1974 Ordinance). During this period, Lewisville's development code did not provide protections to ensure gentler transitions between industrial and residential uses. As a result, industrial uses are directly adjacent to residential uses, fracturing the neighborhood. Neighbors expressed a desire for their neighborhood to be primarily residential again. City staff agreed to initiate the rezoning of residential properties that are zoned LI zoning district with the consent of the property owner.

The lot is currently vacant. The R-7.5 zoning district is intended to preserve and promote the health of existing single-family neighborhoods and accommodate single-family detached, two-family dwellings and accessory structures and uses on moderate-sized lots. All the surrounding properties are zoned Light Industrial (LI) zoning district. The properties to the south and east are vacant, and the property to the west has a home.

Staff finds this case consistent with community input and in alignment with the Lewisville 2025 Vision Plan Big Move of Diverse and Thriving Neighborhoods.

**RECOMMENDATION:**

Staff recommends the Planning and Zoning Commission recommend approval of the zone change request as presented.
