To the Council,

Speaking as the Co-Chair of the Old Town Preservation Society of Old Town and my long service on the Old Town Design Review Committee, I would like to add my voice to a large number of concerned citizens.

Alex's shop is in a location that can be the first view of Old Town and an important offering of things in Old Town. It is not a good representation of the beauty the city is working on right now with the Main and Mill Street beautification plan, a part of the gateway to Old Town and something we have worked hard on for a number of years.

Numbers of photos have shown the shop does not comply with codes for Old Town and can be an eye sore at times, parking damaged cars in the lot set up for "customers", placing damaged parts behind the fence along the back of the building and parking cars in the east driveway that faces the light rail station that blocks the drive for the Fire Department.

Please consider the long range presentation this lot offers for our city.

Sharon Ellis
Co-Chair OTPS
