Staff stated maintenance details for the trail and natural areas are still pending a future agreement between the Parks Department and the applicant. Chair Locke opened the public hearing. The applicant, Robert Dawson with Halff Associates, addressed concerns about the protection of existing trees and vegetation during construction, confirming that standard protective measures (e.g., orange fencing) and a prior tree survey have been completed, particularly around the large culvert system necessary for the western drive of Tract 2. With no one else indicating a desire to speak, the public hearing was then closed. A motion was made by Erum Ali to recommend approval of the zone change as presented, seconded by Joshua Peterson. The motion passed unanimously (6-0). Richard E. Luedke, Planning Director, stated that this item would be considered by the City Council on Monday, November 3, 2025, at 7:00 p.m. for a second public hearing and final decision.
