CONSENT AGENDA

(Agenda Item E)

Councilman Gilmore advised that resident Jon Dahlvig had reached out to him, as well as submitted comments for the City Council, regarding Agenda Item E-8. He indicated that Mr. Dahlvig has expressed that he is not in favor of this item and had requested it be pulled from the Consent. Councilman Gilmore requested that Mr. Dahlvig's comments be included in the record. Mr. Dahlvig's comments are as follows:

I am sending this email and asking that it be entered into official records for public comment in regards to item #8 in the consent agenda. I am unable to attend tonight's, 9/10/18, city council meeting in person.

I also request that the item be pulled from tonight's agenda and discussed by council at the next available city council meeting.

CONSENT AGENDA (cont'd)

(Agenda Item E)

I believe that to reimburse tree mitigation fees and accept a soft-trail walking surface in its place, will provide no long term benefit to our residents or city. The closest approximate 90 single family homes, would still have to cross E. Vista Ridge Mall Dr. just to access the walkway, only just to circle a building on their walk. It's also only promised to be accessible for 10 years.

I also believe and feel that the money from the fees could in turn be used to help provide an adequate public park or area of recreation and exercise for the nearest residential community. Which should help with our cities goal of a 10-minute walk to a park.

I understand in the long run, having the land developed would generate more revenue than some one time fees. I also know that the fees are a concern for the developer. With that said, I also would ask council, what is the point of having ordinances with fees, if when a developer comes in with a proposal, we drop the fees and grant an amendment? The fees have already been reduced once in this case. We as a city need to either stick to and follow our ordinances or eliminate them so there are no hurdles that developers have to jump through.

Councilman Gilmore, nor any other City Council Member indicated their interested in pulling this item from the Consent.

MOTION: Upon a motion made by Deputy Mayor Pro Tem Troyer and seconded by Councilman Ferguson, the Council voted five (5) "ayes" and no (0) "nays" to approve and adopt all items on the Consent Agenda, as recommended and as follows:

7. APPROVAL OF MINUTES: a) City Council Minutes of the June 27, 2018, Called Special Session; and b) City Council Minutes of the August 6, 2018, Workshop Session and Regular Session.
8. Approval of a First Amendment to the Economic Development Agreement, Approved on May 21, 2018, Between the City of Lewisville and Innovative IDM, and Authorization for the City Manager to Execute the Agreement.

ADDITIONAL SCREENING WALL LOCATIONS (PER CURRENT ORDINANCES)

CONDITION RATING FOR SCREENING WALLS

- In FY 11-12, a formula was developed to rate screening walls based on actual conditions. Each wall segment starts with 100 points, then points are deducted for each damaged panel and/or column, pier issues, and/or wire corrosion.
- Screening walls are surveyed annually in early spring to determine the condition rating. City staff are trained in the skills needed to conduct these condition surveys. Staff walk each wall from the beginning to end collecting the needed information which is recorded on a spread sheet formulated to determine the current condition rating. Subdivisions with multiple wall segments are combined for an overall average condition rating.
- Ratings may vary year to year due to weather conditions and continued deterioration.

SCREENING WALL MAINTENANCE

- \$300,000 is allocated annually to fund screening wall repairs.
- The affected portion of the screening wall, such as the skirt, column, cap, panel, beam, or pier is removed and replaced using annual maintenance contracts.
- If an entire subdivision requires repair or replacement, an action step may be requested the next fiscal year for funds specifically for that repair.

TYPICAL MAINTENANCE/REPAIR ISSUES

Cracked columns and panel misalignment due to ground movement can threaten the structural integrity of the wall. These would result in a standard point deduction in their condition rating.

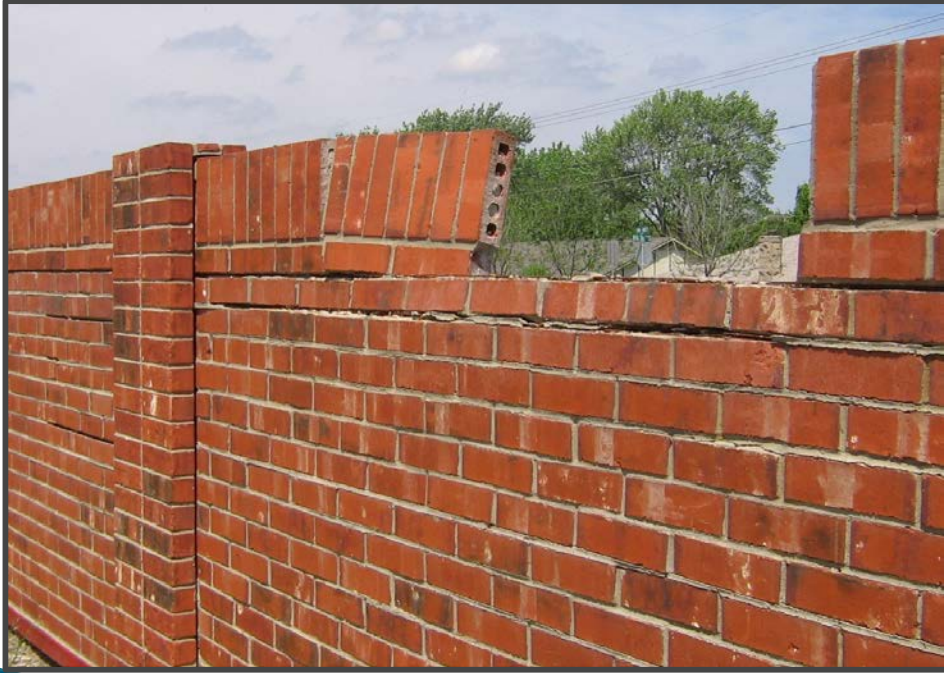

Orchard Valley Estates on McGee Ln.

DFW Screening Wall on Hebron Pkwy.

TYPICAL MAINTENANCE/REPAIR ISSUES

Missing bricks receive a standard point deduction in condition rating.

Highpoint on FM 407

TYPICAL MAINTENANCE/REPAIR ISSUES

DFW Screening Wall on Hebron Pkwy

Valley Oaks on Valley Pkwy

TYPICAL MAINTENANCE/REPAIR ISSUES

Another maintenance issue is matching existing brick colors.
(Due to discontinued brick color, different pit, or another location in the pit.)

Autumn Breeze and Garden Ridge

Linlee and Bellaire

TYPICAL MAINTENANCE/REPAIR ISSUES

Working with contractors, we determined there were certain brick colors that would be around for a long period of time. Care was taken to incorporate these colors within existing walls.

Garden Ridge south of Bellaire,
brick color: Colonial Frost/Essix

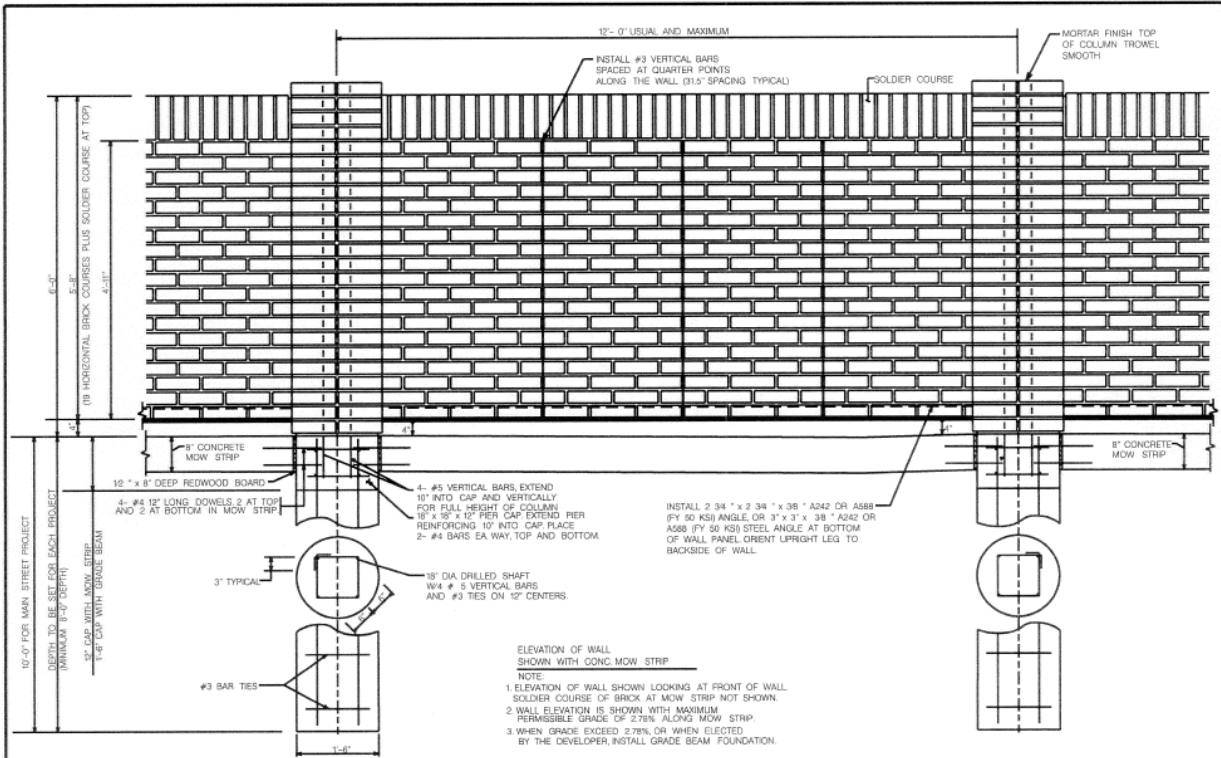

Old Orchard south of Bellaire, brick color:
Magnum Light Flashed Heritage Tumbled

WIRE CORROSION

Once affected with this issue, the entire panel may deteriorate quickly.

Additional points are taken from the wall's condition rating specifically for wire corrosion.

NOTE:

- “N/A” ratings indicate the wall either did not exist at the time of inspection or it was not inspected that year.
- The Highpoint and Vista Oaks subdivisions are good examples of how drastically a condition rating can change when a screening wall is affected by extensive wire corrosion.
- Other variations in scores are related to a combination of maintenance related repairs including accelerated wire corrosion issues.

FIVE YEAR PLAN FOR REPAIR

- A five year plan is developed during the budget process each year based on the \$300,000 funded for repairs.
- This plan is based on location, condition, customer requests, and estimated cost for repair.
- Screening walls listed for repair in the current fiscal year are placed on a repair schedule. As they are completed, the actual cost and completion date are recorded.
- Residents are notified in advance of scheduled repairs. If a screening wall serves as their fence, a temporary fence is installed during non-working hours until repairs are completed.
