File #: 18-0579, **Version:** 1

Approval of a Professional Services Agreement with McCreary & Associates, Inc., in the Amount of \$75,000 for Professional Engineering Services for Design of Electrical Improvements Phase 2 at the Wastewater Treatment Plant; and Authorize the City Manager to Execute the Agreement.

ADMINISTRATIVE COMMENTS:

The City of Lewisville's Wastewater Treatment Plant electrical system was originally constructed in 1988, with a dual loop ungrounded electrical design with nine City owned transformers. Electrical improvements are needed to replace inefficient equipment at the end of its useful life and ground all new electrical systems. McCreary & Associates, Inc. has submitted a Professional Services Agreement, in the amount of \$75,000, which will provide the power factor design, electrical grounding and improvements to protect electrical systems within the Wastewater Treatment Plant. Funding for the project is available in the Water/Wastewater System Improvements Capital project.

RECOMMENDATION:

That the City Council approve the agreement as set forth in the caption above; and authorize the City Manager to execute the agreement.
